

DO YOU HAVE SEVERE FATIGUE WITH NO MEDICAL EXPLANATION?

If so, you may be eligible to participate in a research study being conducted at Weill Cornell Medicine. The cause of Myalgicencephalomyelitis/Chronic Fatigue Syndrome (ME/CFS) is unknown and the researchers are working to show that some patients have their illness due to brain dysfunction.

We are looking for:

- ✓ Men & Women 21 to 65 years old
- ✓ Your doctor can find no cause for your severe fatigue

Study participation includes:

- ✓ A visit to study physician's office for the following:
 - Questionnaire about your physical and mental health
 - Medical examination to determine if you have ME/CFS and can participate in our studies
- ✓ A visit to Weill Cornell Medicine for the following:
 - Questionnaire
 - Magnetic brain imaging (MRI)
 - Blood draw
 - Urine test
 - Cardiopulmonary Exercise Test (CPET)
 - Positron Emission Tomography (PET) scan
- ✓ Compensation for your time

For more information about the study please contact:
