DO YOU HAVE SEVERE FATIGUE WITH NO MEDICAL EXPLANATION?

If so, you may be eligible to participate in a research study being conducted at Weill Cornell Medicine. The cause of Myalgicencephalomyelitis/Chronic Fatigue Syndrome (ME/CFS) is unknown and the researchers are working to show that some patients have their illness due to brain dysfunction.

We are looking for:
✓ Men & Women 21 to 65 years old
✓ Your doctor can find no cause for your severe fatigue

Study participation includes:
✓ A visit to study physician's office for the following:
  o Questionnaire about your physical and mental health
  o Medical examination to determine if you have ME/CFS and can participate in our studies
✓ A visit to Weill Cornell Medicine for the following:
  o Questionnaire
  o Magnetic brain imaging (MRI)
  o Blood draw
  o Urine test
  o Cardiopulmonary Exercise Test (CPET)
  o Positron Emission Tomography (PET) scan
✓ Compensation for your time

For more information about the study please contact:
